Thanks. This is good.

I haven't heard from Ricci so let's wait until he calls to setup a meeting before we get together to discuss how we plan to respond. When, if, Ricci calls, I'll ask him to be more specific about the Group's concerns/issues.

Hey Guys,

Sorry forgot to send this to you. Please review add any other contractor oversight that I may have omitted. Let me know if you are available to discuss tomorrow midday.

Thanks,
Tanya

Hello all,

I will begin to put together a list of tasks that were conducted during the billing period. Once completed we can meet to see what additional information is needed for the meeting.

Thanks,
Tanya

As you know, the PRPs are requesting a meeting to discuss our oversight costs including the time we bill to the project and our oversight of the costs billed to EPA. We need to prepare for that meeting. Any thoughts?
